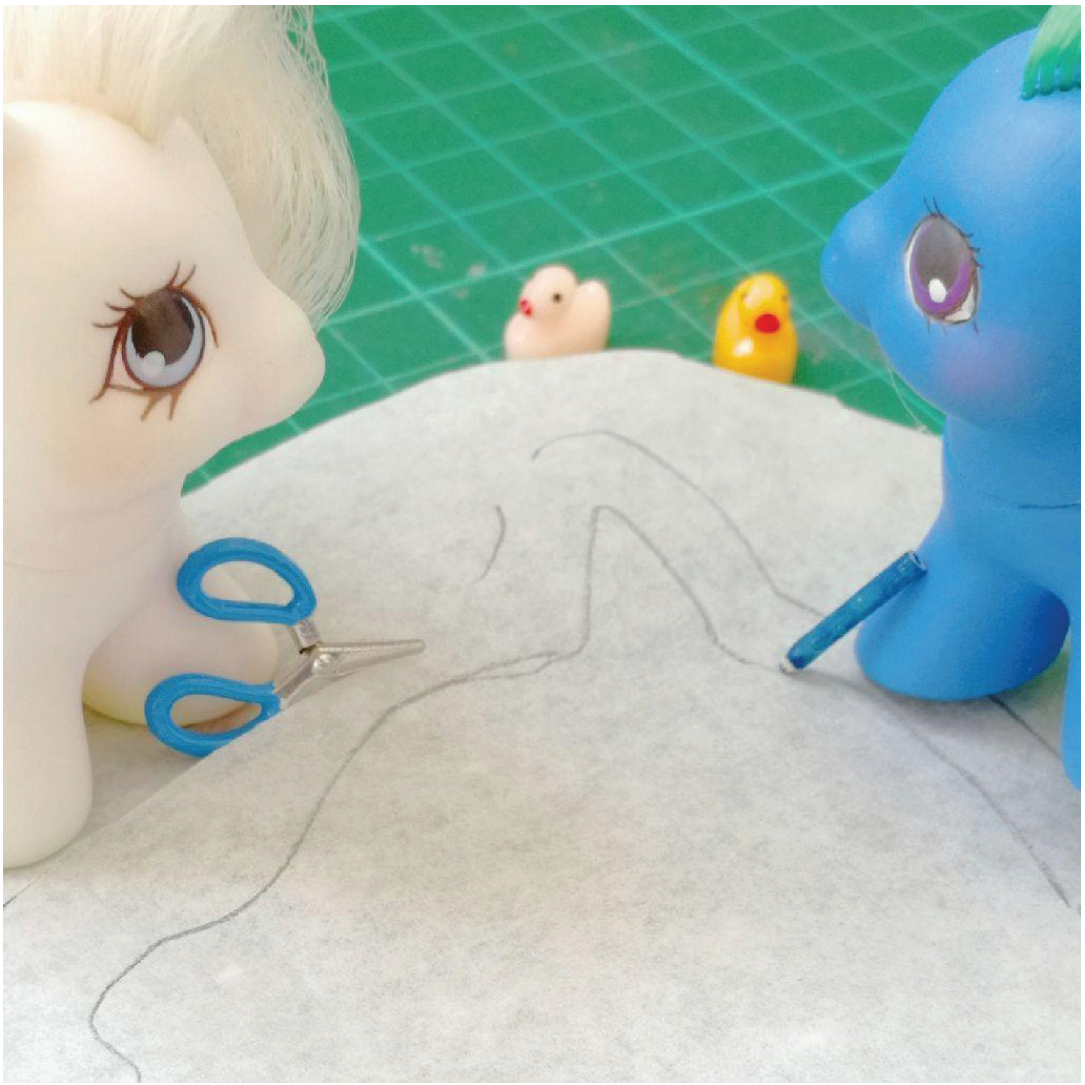
DREAMING IN SPACE
OUTLINED WINDOW DECOR

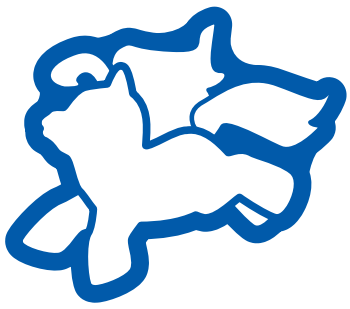
Crafting pattern to make your own little herd of window pony decor.
This requires some opaque sturdy crafting paper/cardboard,colored transparent paper, cutting tools, paper glue, a pencil and pens for details.

- Created by **AnnaPommes** for NachtlichtCon.-



Printable pages:

1. **Cutting pattern**



page 5

2. **Placement example**

page 6

2. **Cutting pattern stars**

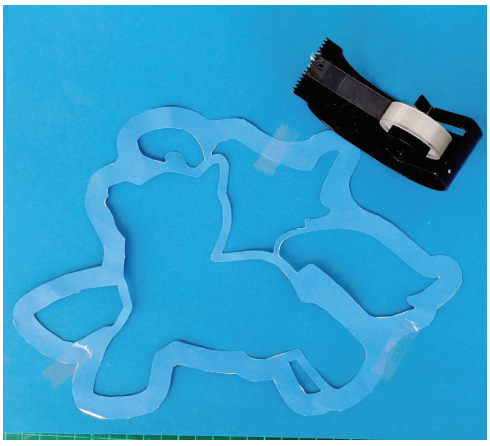
page 7

How to make

1. Print the pages 5 (cutting pattern) and 6 (placement example). You can print it enlarged with the „poster setting“ in your printers setting, if you like.

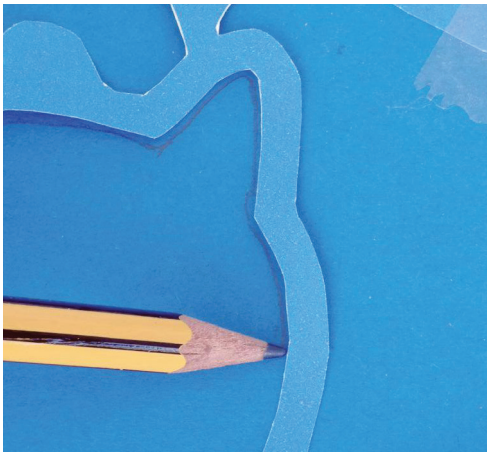
2. Place the page 5 (cutting pattern) on a cutting mat and cut the inner white spaces of the outlines with an exacto knife or a small scissor.

3. Now cut the outer silouette of the outlines. Now you have a template for your pony!



4. Tape the template on your colored crafting paper/ cardboard. Use a pencil to draw along the edges of your template to copy it on your cardboard.

5. Cut out your cardboard outlines, this will be the frame for our window decor.



6. Now take your transparent colored paper and use the template again. For example, take your transparent colored paper you want to use for the body of the pony. Draw the inner shapes of the body via the template on the paper.

   - For simple body and hair cutting pattern print page 8 of this PDF. The placement is seen on the frame cutting pattern page 5. -

How to make

7. Cut out the transparent paper with a seam allowance. This seam allowance is where you need to glue the transparent paper to the frame.

8. When you have closed all the inner spaces of your frame by glueing the transparent paper behind it, leave it to dry.

   Afterwards, you can place it over the printed placement example and trace the details(like the eyes and nose) with a pen on your transparent paper.

9. Attach your finished artwork with tape rolls on

More ideas

- Ponies symbols can be crafted in cardboard, cut out as a collage or drawn on the transparent paper!
- The hair can be made out of various different colored paper to resemble a rainbow mane.
- GLITTER.
- White transparent sandwich bags or similiar thin but sturdy food wrapping paper can be used aswell and colored with markers after glueing it to the frame.
- No colored cardboard at home? Look for sturdy boxes like cornflakes boxes. Cut out a side of the box big enought to fit the template.
  Paint the Cardboard in your desired color - then proceed with tracing your template on it and cut it out as frame for your crafting próject.
